Workers' Compensation Appeals Tribunal

Master List of Decisions

December 1985 - April 26, 1991

A complete list of all decisions of the Tribunal, including release date and the volume number of the Numerical Index (NI) or the Decision Digest Service (DDS), where the summary of each decision can be found. The list also includes cites for the Workers' Compensation Appeals Tribunal Reporter (WCATR), where applicable.

At the end of the Master List is a list of decisions that have been the subject of applications for judicial review.

Workers' Compensation Appeals Tribunal

Annotated Statute

December 15, 1989 - April 26, 1991

PREFACE

The **Annotated Statute** lists decisions of the Ontario Workers' Compensation Appeals Tribunal under relevant sections of the *Workers' Compensation Act*, its regulations and other statutes to which the decisions refer.

Under each section heading is a list of decisions specifically referring to that section. Beside the decision number are all the relevant sections in the Annotated Statute where the decision is entered. Not all decisions are listed in the Annotated Statute. Only those that interpret a section of the Act or otherwise add to understanding of the section are included. All decisions of the Tribunal are listed in the *Keyword Index* under the appropriate subject matter. We recommend that you use the Annotated Statute in conjunction with the Keyword Index.

All section numbers refer to the sections of the *Workers' Compensation Act* as amended at the time of preparation, unless otherwise noted. Amendments to the Act which were proclaimed on January 2, 1990, have repealed and replaced several sections of the Act. For example, section 45 of the pre-1989 Act dealt with permanent disability. As a result of the amendments, section 45 deals with non-economic loss. In the Annotated Statute, "Section 45" refers to the new non-economic loss provisions and "Section 45 pre-1989" refers to the old permanent disability provisions.

Decisions which have been selected for publication in the **Workers' Compensation Appeals Tribunal Reporter** have been marked with an asterisk. Please refer to the **Master List of Decisions** for summary and Reporter cites.

WORKERS' COMPENSATION APPEALS TRIBUNAL

INTRODUCTION TO THIS INDEX OF SECTION 15 CASES

Establishment of the Tribunal

The Appeals Tribunal came into existence on October 1, 1985 under the chairmanship of S.R. Ellis.

The Tribunal replaced the WCB Appeal Board but is a separate organization, independent of the WCB. It is the new final level of appeal to which workers and employers may bring disputes concerning Workers' Compensation Board (WCB) matters. It hears and determines appeals respecting entitlement to compensation, or assessments or penalties under the *Workers' Compensation Act*. It also determines the effect of the Act on workers' rights to take civil actions against their employers. Section 15 of this Act deals with these rights.

Purpose of This Subject Index

This Subject Index lists WCAT decisions considering the issue of "arising out of and in the course of employment" and some judicial decisions from Canada and England. This index is edited by the Tribunal's Information Department. The TAB number refers to the location of the cases in the Section 15 Binders in the WCAT Library. This is a cumulative index whereby each new issue updates the previous issue. Relevant WCAT decisions and court cases will be added to this Index on a monthly basis as they are reported.

Note to Users of This Index

Users should update this Index from the date given on the cover. This Index is published for purposes of convenience only. For accurate reference, recourse should be made to the original full text of the decisions and cases. Users should update court cases through standard legal research publications.

Tribunal Decisions

Tribunal decisions are available for reference at the Tribunal's library, major public libraries, and county and district law libraries across Ontario. Copies of decisions are available for 15 cents per page plus \$2.50 per copy from the Information Department of the Tribunal.

Inquiries concerning the Tribunal's indexes, decisions and other publications should be addressed to: Information Department, Workers' Compensation Appeals Tribunal, 505 University Avenue, 7th Floor, Toronto, Ontario, M5G 1X4. Telephone: (416) 598-4638, Fax: (416) 965-3558.

TRIBUNAL SYSTEM OF DECISION NUMBERING

Where Does the Numbering Come From?

A decision number is assigned at the time a hearing or application occurs. These numbers are assigned automatically, in numerical order, and are used regardless of the date of the decision. Because of this, a higher number decision often is released before a lower number.

Why do some recent decisions have "/87" after them?

Given the large volume of appeals to the Tribunal, it is impractical to continue numbering indefinitely. Therefore, effective January 1, 1987, when decision numbers are assigned, they will indicate the year in which the hearing took place. So, all *hearings* in 1987 will have "/87" after the number, all hearings in 1988, "/88", etc.

Any decisions without a year indication are those heard in the first 15 months of the Tribunal's operation; that is, October 31, 1985, to December 31, 1986.

What do the letters after the numbers mean?

The vast majority of cases heard by the Tribunal involve a one-step process in which the party or parties attend a hearing and a decision is issued when a final decision is made by the Hearing Panel.

In some cases, however, a further decision on the same, or a related issue may be required. The Tribunal will therefore add a letter suffix to the decision number to indicate that it may be part of a two (or more) step process. These suffixes designate the following:

A	Addendum
I	Interim
L	Leave to Appeal
LM	Leave <i>and</i> Merits
R	Reconsideration

There will be some minor variations, mostly with respect to pre-1987 hearings. The following additional suffixes may appear for cases in which the initial decision was released before this system was introduced:

F	Final (final decision where an interim decision was released without an "I" suffix)
M	Merits (decision on merits of an appeal where a leave-granting decision was released without an "L" suffix)

As an example, a Tribunal Panel made a decision on a case in Decision No. 72. Following the decision, the Tribunal was requested to reconsider its decision and, as a result, a hearing took place resulting in Decision No. 72R. Decision No. 72R decided that a further hearing, by a different Panel of the Tribunal, should take place. That Panel's ruling resulted in Decision No. 72R2.

What about Leave to Appeal?

The Tribunal has decided that, in most cases, an application for leave to appeal a decision of the former Appeal Board of the WCB (under section 86o of the Workers' Compensation Act) will be a two-step process. A hearing will be convened to decide if leave to appeal should be granted, and the decision on leave will have the suffix "L".

If leave is granted, a hearing on the merits of the case will then take place and the resulting decision number will be the same as the leave decision, but without the "L".

In the rare case that a leave application and the merits of the case are heard together, the decision number will indicate "LM" meaning Leave and Merits.

There will be some minor variations from the above system, mostly with respect to pre-1987 hearings.

Workers' Compensation Appeals Tribunal

Keyword Guide

Introduction

The **Keyword Guide** is designed to assist the user in identifying all keyword terms that may be relevant to a particular issue being searched.

The keyword terms used by the Tribunal to classify the issues which arise in its decisions may consist of several words and several levels of subheadings. As the **Keyword Index** is organized alphabetically by the first word of the heading, if the word being searched is buried within the heading or appears only in a subheading, that word would be difficult to locate solely by examining the **Keyword Index** itself. That is why it is advisable to refer to the **Keyword Guide**. It is an alphabetical list of all the important words which appear in the keyword terms. For each word, a list is given of every keyword term which contains that word.

Statutory amendments, shifting interpretations of the legislation and new concepts emerging from the decisions, have all required refinement of existing keyword terms and the addition of new ones. Therefore, similar subject areas may have been classified under different keyword terms at the various stages in this evolutionary process. The **Keyword Guide** can be useful in identifying all of the related variations in the keyword terms. In the **Keyword Guide**, if a keyword term is marked with a single asterisk, this signifies that it appeared only in the old **Keyword Index Volume 1** covering decisions released from December 1985 to March 22, 1988. This may mean that there has been a change in the keyword terms and that the new terms must also be found. Keyword terms marked with a double asterisk have appeared in both the old **Keyword Index Volume 1** and the new **Keyword Index** covering decisions released since March 22, 1988. Keyword terms with no asterisks have appeared in the new **Keyword Index** only.

The **Keyword Guide** is consolidated as of December 31, 1990, and will be updated periodically.

Keyword Guide

Consolidated as of December 31, 1990.

* Indicates that the term is found in the Keyword Index Volume 1 only.

** Indicates that the term is found in the Keyword Index Volume 1 and the new Keyword Index (Cumulative Index binder and Decision Digest Service binders).

No asterisks indicates that the term is found in the new Keyword Index only.

Workers' Compensation Appeals Tribunal

Annotated Statute

December 1985 - December 15, 1989

PREFACE

The **Annotated Statute** lists decisions of the Ontario Workers' Compensation Appeals Tribunal under relevant sections of the *Workers' Compensation Act*, its regulations and other statutes to which the decisions refer.

Under each section heading is a list of decisions specifically referring to that section. Beside the decision number are all the relevant sections in the Annotated Statute where the decision is entered. Not all decisions are listed in the Annotated Statute. Only those that interpret a section of the Act or otherwise add to understanding of the section are included. All decisions of the Tribunal are listed in the **Keyword Index** under the appropriate subject matter. We recommend that you use the Annotated Statute in conjunction with the Keyword Index.

All section numbers refer to the sections of the *Workers' Compensation Act* as amended at the time of preparation, unless otherwise noted. Amendments to the Act which were proclaimed on January 2, 1990, have repealed and replaced several sections of the Act. For example, section 45 of the pre-1989 Act dealt with permanent disability. As a result of the amendments, section 45 deals with non-economic loss. In the Annotated Statute, "**Section 45**" refers to the new non-economic loss provisions and "**Section 45 pre-1989**" refers to the old permanent disability provisions.

Decisions which have been selected for distribution in the Subscription Service (discontinued) or for publication in the **Workers' Compensation Appeals Tribunal Reporter** have been marked with an asterisk. Please refer to the **Master List of Decisions** for summary and Reporter cites.

Workers' Compensation Appeals Tribunal

Annotated Statute

December 1985 - December 15, 1989

This **Annotated Statute (December 1985 - December 15, 1989)**, is a consolidated and edited version of the Annotated Statute Volumes 1 - 7, which appeared either independently or together with the Numerical Index.

It has been edited to follow the same policy on content and format as the current Annotated Statute in the **Decision Digest Service**. The purpose of the consolidation is to reduce the number of places that you have to search in order to find decisions related to particular sections of the Act. The following volumes of the Annotated Statute have been replaced by this consolidation:

Published independently

Volume 1	December 9, 1985 - December 31, 1986
Volume 2 No.1	January 1, 1987 - April 17, 1987
Volume 2 No.2	April 18, 1987 - November 24, 1987

Published together with the Numerical Index

Volume 3	March 1988 [November 24, 1987, to March 1988]
Volume 4	July 1988 [March 1988, to July 1988]
Volume 5	November 1988 [July 1988, to November 1988]
Volume 6	May 26, 1989 [November 1988, to May 26, 1989]
Volume 7	December 15, 1989 [May 26, 1989, to December 15, 1989]

Rather than looking under a section in each of the above volumes, you can now look in this new consolidation.

For decisions released since December 15, 1989, look in the cumulating Annotated Statute, which is also in this binder, and in the most current Digest binder.
